Upsell & Bundle Paths

01

Company Identity

AX-Channels is a digital systems studio for growing companies that need clarity at scale. We design and build websites, web apps, and branding that survive growth, not just launch day.

Core Positioning: "While most agencies optimize for speed or aesthetics, we build digital infrastructure: systems that scale with your team, adapt to real users, and don't break when your business evolves."

STUDIO TYPE

Digital systems studio. Not a dev shop, not a pure design agency, not a template factory.

CORE BELIEF

Good design is infrastructure. Every decision either supports growth or creates friction.

SIZE & MODEL

Intentionally small. Selective. Outcome-driven. We say no to bad-fit projects.

The Problem We Solve

Most businesses face the same trap: they launch a digital product that works just enough to go live, but fails when real growth hits.

ROOT CAUSE WE TARGET

Digital products are built by specialists who don't talk to each other. Designers ignore technical constraints. Developers build features that weren't designed for real user flows. The result: expensive rework, user frustration, missed opportunities.

Symptoms we solve:

- Websites that can't accommodate new content without breaking layouts
- Apps that weren't designed for error states — users get stuck
- Design files that developers can't actually build from
- Products needing complete redesigns every 18 months
- Teams forced to choose between "pretty" and "functional"

04

Pricing Architecture

All pricing is in South African Rand (ZAR) unless a client is billed internationally (USD invoicing available at prevailing rate + 3% admin).

Pricing Philosophy: We price for value delivered and systems built, not hours logged. Our tiers reflect scope, complexity, and depth of thinking — not just deliverable count. Always position the middle tier as the default recommendation.

DEPOSIT POLICY

50% deposit required to begin all projects.
Remaining 50% on delivery. Retainers billed monthly in advance.

REVISION POLICY

All tiers include defined revision rounds.
Additional rounds billed at R500 when requested after launch

05

Web Design & Development

Custom WordPress websites designed for your business goals and built on the world’s most reliable CMS platform. From professional business sites, we create websites that are easy to manage, fast to load, and optimized for conversions

06

E-commerce Pricing

Full e-commerce design and build — from clean DTC storefronts to scalable multi-catalogue platforms. Platforms: Shopify, WordPress WooCommerce, or headless builds.

LAUNCH R5,500 One-time · 4–5 weeks → Up to custom 5 pages → Product listing + detail pages → Cart, checkout + order confirmation → Shopify or WooCommerce setup → Mobile-responsive design → Basic SEO structure → Payment gateway integration (1) → Up to 50 product uploads	RECOMMENDED GROWTH R10,000 One-time · 6–8 weeks → Up to 12 page templates → Custom UX + conversion optimisation → Collections, filters, search → Wishlist, reviews, upsell modules → Multi-currency or multi-language (1 extra) → 2 payment gateways + PayFlex/BNPL → Analytics dashboard setup (GA4 + Meta Pixel) → CMS for blog/editorial content → Up to 200 product uploads	ENTERPRISE R18,000+ Custom scope · 10–16 weeks → Headless architecture (Shopify + Next.js or similar) → Custom design system + component library → Advanced filtering, faceted search → B2B wholesale portal option → ERP / inventory system integration → Performance audit + Core Web Vitals optimisation → Custom loyalty or rewards module → Full QA + UAT cycle → 1-month post-launch support retainer
--	---	--

Retainer option: Ongoing store management, updates, and CRO from R2,300/month

Add-on: Email marketing integration (Klaviyo/Mailchimp) +R1,500

07

Company Profile Design

Print and digital-ready company profile documents. These are high-converting sales tools, not just brochures — design for the second impression, not just the first.

STARTER R650 One-time · 5–7 days → Up to 8 pages → 2 design concepts, 2 revisions → Digital PDF (print-ready) → Brand-aligned layout using existing identity → Client provides copy	POPULAR PROFESSIONAL R1,300 One-time · 10–14 days → Up to 16 pages → 3 design directions, 3 revisions → Copywriting consultation + light editing → Custom icons, illustrations, and infographics → Interactive digital PDF + print version → Covers: About, Services, Process, Team, Case Study section	EXECUTIVE R2,500 One-time · 3–4 weeks → Up to 30 pages → Full copywriting + strategic narrative → Custom photography brief (stock direction or shoot brief) → Data visualisations + infographic sections → Interactive PDF + print-ready CMYK file → Editable InDesign / Figma master → Annual refresh included (12 months)
--	---	--

Note: Starter tier requires client to provide all written copy. Pitch Professional minimum when client is entering a new market or pursuing enterprise deals.

Social Media Strategy, Management & Design

End-to-end social media systems — strategy, content design, and management. Not reactive posting; structured, brand-aligned content systems that compound over time.

FOUNDATION R820 /mo Monthly retainer · 3-month minimum → 1 social platform (LinkedIn or Instagram) → 8 (2p/w) designed posts per month → Monthly content calendar → Branded templates (not custom per post) → Caption writing → Scheduling + posting → Monthly performance report	RECOMMENDED SCALE R1,500 /mo Monthly retainer · 3-month minimum → 2 platforms (any combination) → 16 designed posts per month (custom per post) → 2 short-form video/reel concepts per month → Content strategy session (monthly, 1hr) → Campaign design (launches, promotions) → Community engagement (comments, DMs — 5 days/wk) → Bi-weekly analytics review → Competitor benchmarking (quarterly)	FULL-SERVICE R6,000 /mo Monthly retainer · 3-month minimum → Up to 4 platforms → 28 designed posts per month (fully custom) → 4 video/motion assets per month → Full content calendar + brand voice guide → Paid social ad creative (2 campaigns/mo) → Influencer brief writing → Weekly analytics + weekly team check-in → Dedicated account strategist → Quarterly brand review + strategy reset
---	---	---

Platform note: TikTok management billed at Foundation+ pricing; video-first platforms require Scale minimum

Business Cards & Email Banners

Professional print and digital collateral. Flat-rate packages — no tiers, just clean delivery. Always paired with existing brand identity work.

BUSINESS CARDS — R800 Design only (print-ready PDF for any printer). Includes: — Front + back design (both sides) — Up to 5 staff variations (same layout, different names/roles) — 2 revision rounds — CMYK print file + digital PNG version — Optional QR code element	EMAIL SIGNATURE BANNER — R800 Professional email signature. --	--

10

Mobile App Design Pricing

Mobile UX/UI design for iOS, Android, and cross-platform products. Design-only (no development) — we provide full developer-ready handoff. Development partnerships available on request.

MVP R10,000 One-time · 4–6 weeks → Up to 15 unique screens → User flow mapping (core journey only) → Wireframes + high-fidelity screens → iOS or Android (one platform) → Light design system (colours, type, buttons) → Figma prototype for testing → Developer handoff specs → 2 revision rounds	RECOMMENDED PRODUCT R20,000 One-time · 8–10 weeks → Up to 30 unique screens → Full UX research synthesis (if data provided) → Journey mapping + all key user flows → iOS + Android (both platforms) → Full design system (component library) → Onboarding, empty states, error states → Interactive Figma prototype → Usability testing facilitation (1 round) → 3 revision rounds → Full developer handoff with annotations	PLATFORM R35,000+ Custom scope · 12–18 weeks → Unlimited screens (phased delivery) → Discovery + user research phase (3 weeks) → Competitive analysis + benchmarking → iOS, Android + tablet variants → Full design system + documentation → Accessibility audit (WCAG 2.1) → Motion + micro-interaction design → 2 rounds of usability testing → Unlimited revisions to chosen direction → Post-launch design support (3 months) → Design QA during development
---	--	---

Note: MVP tier is for validated ideas with clear scope. Do not quote MVP if client hasn’t validated the core user need — recommend Product minimum.

Add-on: App Store / Play Store asset design (icons, screenshots, preview video) +R5,500

Add-on: UX research (interviews, surveys, synthesis) +R7,000–R25,000 depending on scope

11

Ideal Client Profiles

STARTUPS (SERIES A–B)

Product-market fit proven. Need digital infrastructure to match growth. Tired of duct-taped solutions. Budget: R80K–R300K. Decision maker: Founder or CPO.

SMES (R150K–R500K)

Business has grown but digital presence hasn’t. Need to reflect quality of work. Decision maker: CEO or Marketing Director. Budget conscious but quality-aware.

PRODUCT-DRIVEN COMPANIES

Building SaaS, tools, or digital-first products. Need a partner who thinks like a product team. Budget: R120K–R500K+. Decision maker: CTO or Head of Product.

Remember: We're not the biggest studio. We're the one teams call when they've outgrown templates but aren't ready for bloated agencies — and when getting it right matters more than getting it fast.

Every proposal should reflect this.
